

The increasing demand for environmentally friendly transportation has prompted many companies to develop electric vehicles.

Geliştirmek: develop

İtmek, sevk etmek: prompt decision: acele karar

Artan talep: increasing demand

Although electric vehicles have gained popularity, their limited charging infrastructure can cause range anxiety for potential buyers.

Kazanmak: gain /// gain popularity: popular olmak

Sebepl olmak: cause

Altyapı: infrastructure

Sınırlı: limited

Thus efforts to expand charging networks are underway, AIMING to address this concern and strengthen the appeal of electric vehicles.

Expand: genişletmek, artırmak

Underway: yapım aşamasında

, Ving: ki bu...

Address: ele almak

Strengthen: güçlendirmek...

Additionally, the development of more advanced battery technologies is underway to further weaken the barriers to widespread adoption of electric vehicles.

Further: ilerlemek / ilerletmek

Further: daha uzak... daha fazla....

Adapt: adapte etmek / adept: hünlerli olma

Adopt: benimsemek, evlat edinmek

Adoption: benimsenme

Additionally: ek olarak / In addition

In addition to: -e ek olarak

Add: eklemek

Development: gelişim

the development of more advanced battery technologies: daha gelişmiş batarya teknolojilerinin gelişimi

further: daha fazla

weaken: zayıflatmak /// weak: zayıf...

1. A) in

B) on

C) for

2. A) Although

B) Since

C) Given that

3. A) In fact

B) However

C) Thus

4. A) aimed

B) aiming

C) to aim

Steel, (which is) a versatile and durable material, played a crucial role **IN the industrial advancements of the 20th century.**

Versatile: çok yönlü, çok kullanışlı

Durable: sağlam

the industrial advancements of the 20th century: 20.

Yüzyılın endüstriyel gelişmeleri

the advancements of industry in the 20th century: 20.

Yüzyılda endüstrinin gelişmesi

Steel's high strength made it suitable for various applications, **SUCH AS** construction and manufacturing.

Suitable: uygun, feasible,

Construct: inşa etmek //// construction: inşa, yapı

Moreover, the addition of other alloys, such as chromium and nickel, enhanced steel's properties and made it resistant to corrosion.

Moreover: furthermore, in addition, what's more, additionally, besides: dahası

Alloy: bileşenler, karışımlar

Enhance: improve: further: advance: geliştirmek: thrive: flourish: prosper: blossom.

Property: mal, mülk, özellik

Corrosion: aşınma, pas

Yet, **despite** the emergence of alternative materials, steel remains widely used today due to its cost-effectiveness and reliability.

Yet: however: nonetheless: nevertheless: even so: ama

Emerge: ortaya çıkmak; emergence: ortaya çıkma

Widely used: yaygın bir şekilde kullanımda kalır...

Due to: bu yüzden: because of: owing to: as a result of: as a consequence of...

Rely on: güvenmek, bel bağlamak

Reliable: güvenilir: dependable: countable

Reliability: güvenilirlik...
