

Exercise 1.

Match the words with their definitions.

1. kazanmak

A) remain *kalmak*

B) gain

2. yaygın

A) widespread

B) skeptical *süplakeli*

3. düşünmek

A) consider

B) involve *içermek*

4. başarılı bir şekilde

A) controversially

B) successfully

5. nakletmek, nakil yapmak

A) propose *önermek*

B) transplant

6. tüm, tam

A) entire

B) significant *önemli*

Exercise 2.

Choose the correct option.

1. controversial work ---- human head transplantation

A) on B) with

2. ---- skepticism

A) significant B) widespread

3. remain skeptical ---- its feasibility

A) among B) of

4. a ---- option

A) severe B) viable

Italian neurosurgeon Sergio Canavero has gained (1)--- attention in the medical community for his controversial work on human head transplantation. (2)---, his proposed procedure has faced widespread skepticism and ethical concerns. (3)--- traditional surgical practices, Canavero's approach involves transplanting an entire head onto a donor body. (4)--- the procedure has not been performed successfully on humans, many experts remain skeptical of its feasibility and potential risks. (5)---, further research and scientific consensus are needed before this procedure can be considered a viable option in medical practice.
