

1. **Scholars have long debated the extent to which technological advancements \_\_\_\_\_ the evolution of human behavior.**
  - A) alter
  - B) reinforce
  - C) simplify
  - D) restrict
2. **The study revealed that exposure to diverse cultures can \_\_\_\_\_ an individual's perspective on global issues.**
  - A) mitigate
  - B) stimulate
  - C) diminish
  - D) disregard
3. **The government must \_\_\_\_\_ sufficient resources to address the growing demand for renewable energy solutions.**
  - A) exploit
  - B) spend
  - C) allocate
  - D) misuse
4. **Researchers have identified several factors that \_\_\_\_\_ the rise in global temperatures over the past century.**
  - A) stem from
  - B) bring about
  - C) adjust to
  - D) vary with
5. **It is essential to \_\_\_\_\_ the implications of artificial intelligence before implementing it on a larger scale.**
  - A) overlook
  - B) assess
  - C) prevent
  - D) disregard

6. The report suggests that nations need to \_\_\_\_\_ international agreements to combat climate change effectively.
- A) establish  
B) maintain  
C) exceed  
D) delay
7. Advanced simulation models were developed to \_\_\_\_\_ the accuracy of predicting natural disasters.
- A) lessen  
B) exceed  
C) enhance  
D) suppress
8. The ongoing research aims to \_\_\_\_\_ the effects of urbanization on biodiversity in metropolitan areas.
- A) tackle  
B) predict  
C) observe  
D) mitigate
9. The success of the intervention depends on its ability to \_\_\_\_\_ social inequalities in education.
- A) address  
B) hinder  
C) bypass  
D) reduce
10. The committee is working to \_\_\_\_\_ new strategies that will ensure the sustainability of natural resources.
- A) trigger  
B) set up  
C) diminish  
D) prevent

1. The report emphasized the importance of investing in renewable energy \_\_\_\_\_ it reduces dependency on fossil fuels.  
A) because  
B) while  
C) although  
D) so that
2. The experiment was terminated \_\_\_\_\_ the results were deemed inconclusive.  
A) after  
B) due to  
C) whereas  
D) despite
3. The researchers decided to extend the study \_\_\_\_\_ they could gather more data on long-term trends.  
A) so that  
B) even though  
C) however  
D) because of
4. The data were analyzed thoroughly \_\_\_\_\_ ensure accuracy before publication.  
A) in case  
B) so as to  
C) unless  
D) despite
5. The article discusses the effects of urbanization \_\_\_\_\_ offers potential solutions to mitigate its negative impacts.  
A) while  
B) in contrast  
C) instead of  
D) although
6. Many policies were revised \_\_\_\_\_ the new guidelines implemented by the international organization.  
A) although  
B) according to  
C) as a result of  
D) whereas

7. Researchers remained skeptical about the findings \_\_\_\_\_ further experiments yielded consistent results.

- A) until
- B) whereas
- C) as if
- D) despite

8. The study highlights the correlation between physical activity and mental health, \_\_\_\_\_ it does not provide causal evidence.

- A) because
- B) whereas
- C) nonetheless
- D) but

9. The project was delayed \_\_\_\_\_ unforeseen circumstances disrupted the supply chain.

- A) in order to
- B) as
- C) whereas
- D) despite

10. The team implemented a contingency plan \_\_\_\_\_ prevent further delays in the production process.

- A) so as to
- B) however
- C) unless
- D) despite
